Item 4: Advisory Business

Good Financial Advisors was established in 2007 by Garry Good, Principal and sole-owner of the firm.

We provide financial planning and investment advisory services. Advice may cover a broad range of topics or focus on specific issues, depending on client need. Approximately 50% of our client service activity involves the delivery of financial planning, including advice on cash flow planning, debt management, insurance needs, tax planning, college funding and estate planning. Approximately 50% of our business involves the delivery of investment advice, including recommendations on asset allocation, investment selection and review of existing portfolios.

We conduct a complimentary interview with each prospective client to determine, by mutual agreement, the scope of services to be provided.

Engagements terminate upon delivery of advice to the client. We do not manage assets or provide on-going or automatic reviews. Periodic financial reviews are encouraged. Client is responsible for initiating these reviews.

Item 5: Fees and Compensation

Project Fees are estimated in advance, based on an hourly rate of \$200, the scope of services to be provided, and the time anticipated to perform the work.

If a (minimum-maximum) fee range is quoted, the final invoice is based on actual project time, but the client is never charged more than the quoted maximum.

Project fees are dependent upon each client's unique situation. The complexity of a project is influenced by many factors, such as family size, number of documents to be reviewed, number of existing investment accounts and/or specific securities to be analyzed, and the existence of unique or complicating circumstances.

Discounted fees are negotiable at the sole discretion of Good Financial Advisors.

Deposit and Payment Schedule

Good Financial Advisors requires a deposit, the lesser of \$500 or one-half of the estimated fee. The balance is due and payable immediately upon presentation of the plan or advice to the client. We do not collect fees for services to be performed more than 6-months in advance.

Other Costs

Fees paid to Good Financial Advisors for financial planning and advisory services are completely separate from the fees and expenses charged by mutual fund companies and their portfolio managers. A complete explanation of these fees and expenses are provided in each fund's prospectus. Clients are encouraged to read the prospectus before investing.

Clients may also incur transaction costs or administration fees from broker/dealers, trust companies or other service providers. Clients are encouraged to obtain a complete schedule of these fees from the service provider prior to entering into any engagement. We do not receive any portion of these additional fees. Our only compensation is in the form of hourly fees paid directly by the client.

Termination of Services

Either party may terminate an engagement upon written notice within 5-days of signing the service agreement, at which time no fees are due. If the client terminates the engagement after this date, they will be invoiced for any work already done.

Item 6: Performance-Based Fees and Side-By-Side Management

Good Financial Advisors does not charge "performance-based" fees. We do not provide ongoing investment management service, so issues related to side-by-side management are not applicable.

Item 7: Types of Clients

Good Financial Advisors provides services primarily to individuals and families. We do not impose financial conditions, such as minimum income or net worth requirements, as barriers to engaging our services.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss**Analysis Methodology**

If Good Financial Advisors is engaged to provide investment advice, we collect client information and conduct a personal interview to gain a thorough understanding of the client's current financial situation. During these discussions we work to discover the client's concerns, short and long-term goals and priorities. We assess the client's financial capacity and personal tolerance for risk. After collecting and organizing all client data, we perform the appropriate analysis, conduct any additional research required, and develop a plan to help the client achieve their financial objectives.

Investment Strategies

Good Financial Advisors employs fundamental, long-term, buy-and-hold investment strategies. We believe asset allocation is the primary factor in long-term investment success. We work to construct a well-diversified portfolio that will produce returns sufficient to achieve client's goals, without exposing the client to more risk than necessary.

Our recommendations are based on publicly available reports, analysis, research materials, computerized asset allocation models, and various subscription services.

Risk of Loss

While we believe our strategies and investment recommendations are sound, we cannot guarantee any investment objective will be achieved. Investing in securities involves risk of loss which the client should be prepared to bear. These risks include market risk, interest rate risk, political risk, currency (foreign-exchange) risk, default risk, liquidity risk, interest rate risk, currency risk and political risk.

Item 9: Disciplinary Information

Good Financial Advisors has not been the subject of any legal or disciplinary event pursuant to the Investment Advisors Act or similar state statute.

Item 10: Other Financial Industry Activities and Affiliations

Good Financial Advisors is not affiliated with any other financial industry entity in a manner which creates material conflicts of interest with our clients. We will disclose to the client, prior to and throughout the term of an engagement, any known conflicts of interests which might compromise our impartiality or independence.
